

43 (A) ZOOM SPOT LEFT

PLAY CONCEPT:

The 43 Package has become a fixture of A-11 teams nationwide because it offers a 'heavier' unbalanced look in the Red Box, and a Trips set in the White & Blue box combined. In fact, if you allow for the # 2 back, your team can easily get into a hard-to-defend Quad receivers look by having the # 2 back Stagger or Creep accordingly. In this play our (A) motions behind the wall for a quick screen. If the defense does not adjust, they are outmanned.
